A Brain and Nerve Food.

VITALIZED PHOSPHATES

Prepared from the nerve-giving principles of the Ox brain and Wheat germ; not a laboratory compound, but a living phosphate. Physicians have prescribed 100,000 packages in all forms of nervous disorders, overwork of the brain, weakness, and feeble digestion. They are especially useful in the nervous sufferings, dreams and sleeplessness that accompany and follow the use of alcoholic liquors, preventing the mental and physical prostration, and relieving the craving desire for drink. They build up vitality, and re-energize the nervous system and induce changes so permanent and radical as to be the nucleus of a fresh and more healthy mind and body for all subsequent life.
